Says He is Not Worrying About the Eastern Connections - Denies All Combination Rumors.

Senator W. A. Clark, of Montana, president of the San Pedro, Los Angeles & Salt Lake Railway company, arrived in Salt Lake this morning accompanied by his private secretary, A. Underwood.

From Hot Sulphur Springs, in Middle park, their surveys bear to the northwest, up the Muddy, and cross the Park range, or Continental divide, at Whitely peak, thence down Walton creek to Steamboat Springs, making a direct northwesterly route from Hot Sulphur on the Grand river to Steamboat on the Bear or Yampa river. Shrould this route be accepted it is fair the aim all the way through to Salt Lake, and if so they will follow the Yampa due west through Lily park and the canyon to Green river, continuing on due west through Ashley valley and the reservation to Salt Lake, which is nearly directly west of Steamboat

Where the survey crosses the Park range at Whitly's peak the snow lays five to fifteen feet deep for several months of the year and it is 8,000 feet above sea level, so that the difficulties there would be greater than would be encountered in the Bear river canyon. Of late years railroads build anywhere that a wagon road can be made. We have talked with parties who claimed they had come through the Bear river back, and although rough and a weird place, it was not as difficult as one would naturally suppose. The backbone of the heated spel was evidently broken today by the succession of showers which fell at oda times during the day. The two final performances of "Corianton" as far as the public is concerned, occur this afternoon and evening at the Theatre. Tomorrow afternoon's rendition will be limited exclusively to the old folks, widows, and orphans of the city and no tickets will be sold to the public.

The principals and chorus of "The Prince and the Peasant" company met with Messrs Maitese and Orlob last night and listened to the reading of the report of the recent benefit perform-ance. The full amount of cash on hand was \$235, and it required \$400 to wipe off the slate. After some discustion, in which some feeling was manifested on the part of several of the chorus who had been promised \$10 each, t was finally decided that the cash in sight should be taken and all claims squared off. This gave the members of the chorus \$5 each and each principal about 50 per cent of his or her claim for salary. The idea of rendering "The Prince and the Peasant' 'out of town will now probably be abandoned.

Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to

develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. DEATH BY BULLET OR ROPE Suggestion That Colorado Adopt Utah's System for Murderers.

Juries in Colorado seem to be opposed to the capital punishment law, for thus far only one man has been sentenced to death since the measure was re-enacted In that case the condemned was a negro without any friends, and the state board of pardons commuted the sentence to imprisonment for life. The penitentiary at Canon City is now equipped with a hanging apparatus, but Secretary C. A Stonaker of the state board of charities believes there will be no use for it. I as been suggested that Colorado adop Utah's example and allow the con-demned to choose whether he will be hanged or shot. It is urged that if the prisoner had such a choice it would have its influence with juries, many of whom regard hanging as the worst fate possible. Utah has several awaiting executions, but one of them insisted he preferred to be hanged, and he will mee

death on the gallows.

Murderers executed by the bullet are shot just after sunrise. A piece of paper is pinned over the heart. The con-demned is dressed in black clothes and he is led out to a spot facing a tent in which are three marksmen. If he has made no attempt to escape while he was in prison he is not bound or manacled in muzzies. Even prison guards do not know the men who do the shooting, and as one of the guns has a blank cartridge the executioners themselves cannot be certain which one fired the two bul-lets. Many persons believe, however, the man shooting the gun knows if the charge is a blank. The recoil is less.-

Chairman F. R. Gooding of the Republican state committee of Idaho was in town yesterday for a few hours. He is much pleased over the political outlook for his party, and while he door not give any estimates of a majority still he is perfectly confident of a decided Republican victory in the state this fall. He claims the legislature by a good safe majority, as well as the rest of the state ticket, the congressman and of course the next United States senator. Just who the senator might be, Mr. Gooding dld not predict, beyond saying that Mr. Borah was prominently mentioned.
